

Dear Friends of Wisconsin/Nicaragua Partners,

We appreciate your continued support to the programs in Wisconsin and Nicaragua that touch thousands of lives every year. The comments below are examples of how significant every donation is. 90% of W/NP income is from personal donations, people who know and understand the importance of what happens when people come together for the good of others.

*“Thank you very much for providing an excellent service. I am grateful for this special (burn) garment that helps many people, especially my daughter since she is getting better. I have faith the scar will be less visible with the help of this special garment. Please keep supporting people like us because we need it and this is a good act of love from you . Maybe someday I will help as you do with people like us with little resources. **Although I do not know you, you are special to me.** Blessings and thank you so much. Katia (mother of little girl Cristal/patient from Jinotega)*

*“Thank God and Wisconsin for this great collaboration with us. This will help us to get better knowledge and be able to develop the expectations of our projects with vision, mission and values. Now we can start our business with solidity and promote our sales with greater planning and control. Thank you for this opportunity.”*

*“Wonderful! I always feel good about giving to wnp. I know the money is used wisely and brings much joy.”*

**Rhonda Bartelt, WI**

Fire trucks, ambulances, quilts, sewing machines, bicycles, fabric, backpacks, tables, chairs, sports equipment...and the list goes on. All of these items are important in fulfilling our humanitarian commitment to the people of Nicaragua.

*"Poco a poco se anda lejos" (little by little one goes a long way).*

Working together we develop fresh innovative ideas while continuing and strengthening existing programs. Your financial support is greatly appreciated.

Thanks in advance for helping W/NP to make a difference.

Merry Christmas and best wishes for the New Year,

Sincerely,

*Linda A. Weber*
