It is also informed that the three workshops with the WISCONSIN TOUR will be on Saturday, Sunday and Thursday, for that the whole group of 18 volunteers that come from Wisconsin are involved and the invitation is for all the volunteer leaders and people who want to participate and mobilize on their own to get to each place, and of course they can make groups and look for transportation for more security and accompaniment as is the case of Dora María Flores who is supporting in obtaining a transport to San Juan del Sur with a cost of C \$ 120.00 each.

At the end of March we will not have a meeting because it is a holy week and we already have workshops at the beginning of the month.
