It's great to Reuse, Reduce and Recycle, although quite labor intensive, it's totally worth it. Thank you from all those people who are using the furniture that has been sent.

We need your help to prepare this truck load of furniture for shipment. Thank you Moodie Trucking for providing the storage space up to now.

Learning Center Activities

The last Saturday of each month, Learning Center meetings, including a class or craft instruction, are held at the W/NP office in Managua. You can now view the wonderful photos and comments on the W/NP website: [Click here](#)

The class (taught by Estela) was very useful because it is a way to obtain economic income and at the same time help to take care of the environment. The decorations can be made for the home without having to buy the material, as a teacher it seems important to teach especially for children who do not have the resources.

The class was dynamic and entertaining, now we have a better knowledge of using recyclable material to maintain a clean and healthy country.

The workshop was very good because now we know what to do with the plastic bags that the market gives us, I think it is necessary that we dedicate a little more time to these activities in the future.

Cooking classes for kids at the libraries

Special thanks to the Junior Woman's Club in Stevens Point for helping to cover the cost of ingredients - these

skills will last a lifetime. [Click here for more photos](#)

Anyone have access to sport items we can share?

Thanks everyone who has donated football, baseball, soccer and other sports items.

Sport activities are a great place for kids to learn about teamwork and communication while building self-esteem.

Please bring items to the warehouse in the next week if you have any we can share.

Volunteers at any age can help make a difference!
