Thank you notes for all the special efforts that makes these things possible.....

We love the chairs, thank you so much St. Paul Lutheran School in Stevens Point

"The reason for this is to give you a thousand thanks for giving me this wonderful gift of a bicycle, since it is very useful, now I can travel places where I could not go selling my brooms due to my deaf mute disability, this prevents me get ahead. But I have a lot of will and effort to live, I thank you for remembering me. I am very happy with all of you because now I can mobilize in every corner of Puerto Sandino, Miramar, El Veleroto sell my brooms and thus be able to survive. God continue to bless your organization, so you can continue helping people like me."

"...first of all thank you for your support to make it possible to take a course of great importance, everything was a great success since I have learned a lot about the making of mozzarella cheese. Now it is time to put it into practice with a new project that I am devising since I want to buy milk from several producers and make different types of cheese, cream, yogurt among other products derived from milk and thus start my business considering that the situation to get a job is difficult. Again I reiterate my thanks to you since without your support this would not have been possible."

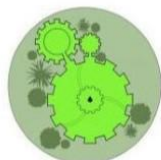

Thank you Appleton Partner City!
